A close-up photograph of a natural concrete surface. The texture is rough and uneven, with a light gray color and numerous small, dark specks and pits scattered across the surface.

Natural Concrete

A close-up photograph of a marble surface with a pattern known as 'Calcatta'. It features a light cream or off-white background with prominent, irregular veins of a darker, light gray or taupe color. The veins are somewhat jagged and organic in shape.

PREMIER QUARTZ SURFACES

A close-up photograph of a dark, almost black, quartz surface with intricate, swirling, and veined patterns of lighter, greyish-white mineral inclusions. The texture appears slightly grainy and organic.

Calypso Black

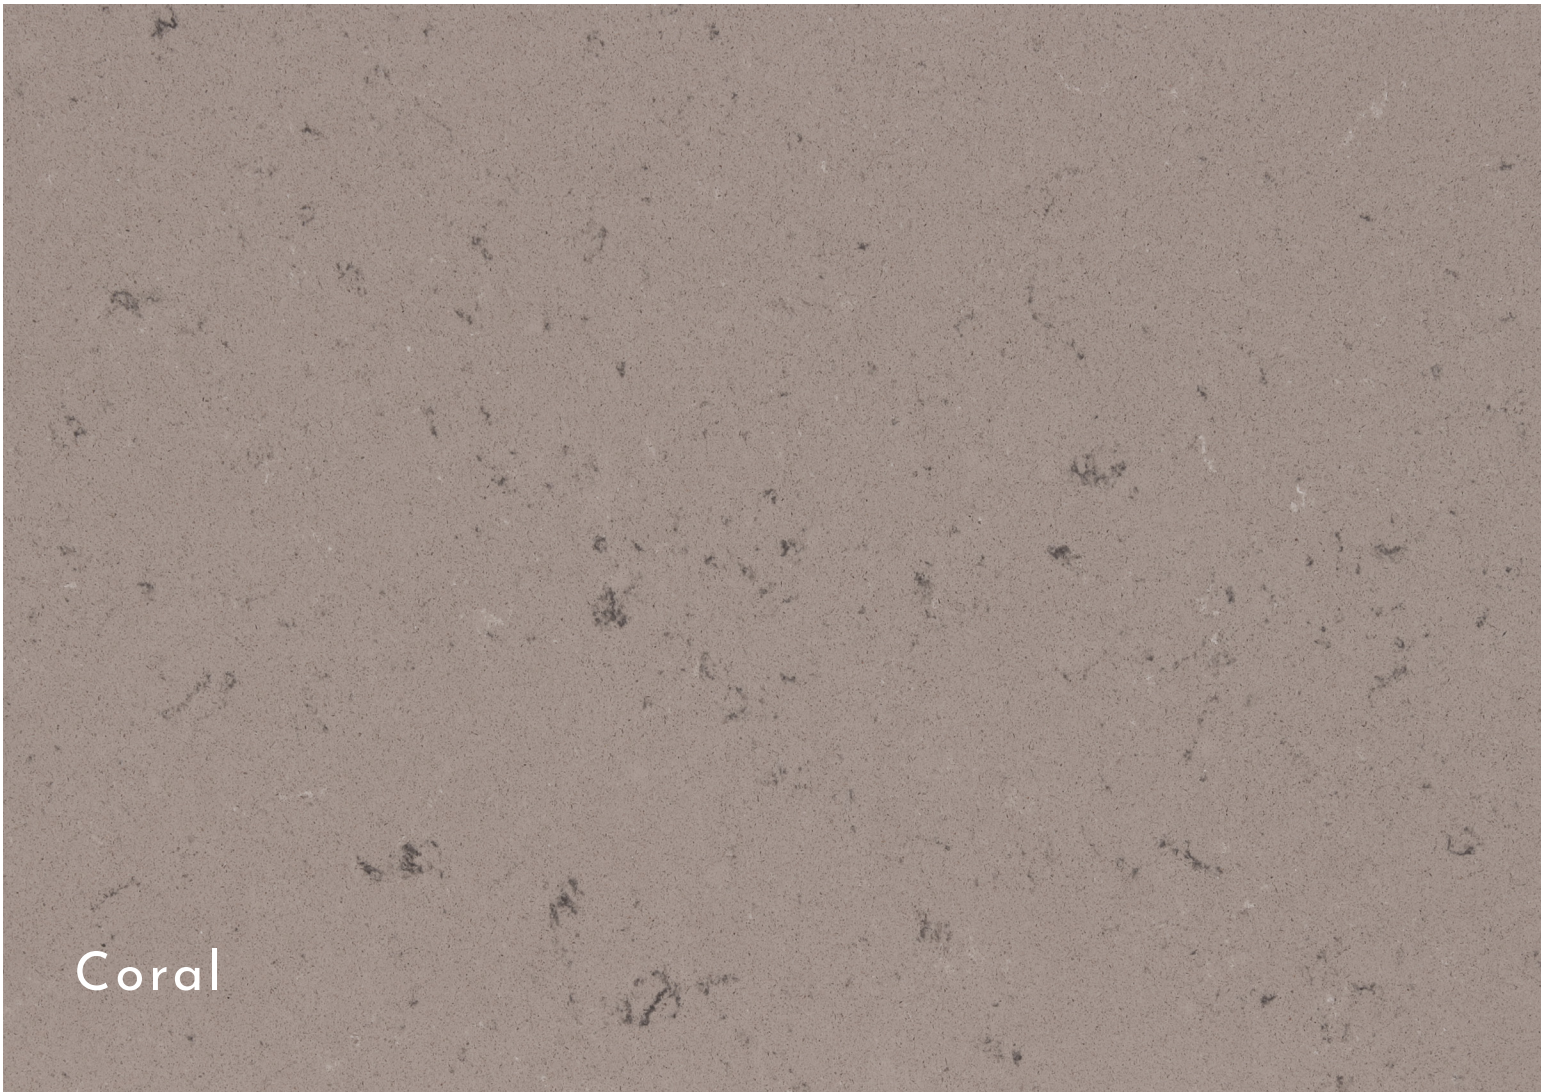

A close-up photograph of a light grey, matte-finished quartz surface. It has a fine, uniform texture with subtle variations in tone and some very small, dark specks scattered throughout, giving it a natural stone appearance.
